

## **Why Massage?**

Massage can help relieve pain from emotional and chronic ailments. In many cases massage helps eliminate the need to take harmful chemical drugs, which will burden the liver, kidneys and other vital organs. Try massage first and see for yourself the amazing results from healing hands.

Massage therapy helps increase blood and lymphatic circulation, which is healing to the body. Massage can help eliminate stored toxins from your tissue.

If you are tense, stressed out, experience headaches often—try a massage today. Call for your appointment today!
